RF Modulator

Connect your video devices with S-video or RCA connectors to TVs with coaxial-only input.

Overview

The Belkin RF Modulator lets you view DVDs, video games, and home videos on a TV that does not have audio video inputs. Simply plug the S-video or RCA-type outlets on your peripherals to a coaxial input on your TV and use the RF Modulator to connect your AV equipment through your television's RF jack. Designed to save space, the RF Modulator features a removable base and offers a perfect solution for connecting DVD players, gaming consoles, and camcorders.

Features

- Allows you to use peripherals with TVs that have no audio video jack
- Offers a perfect solution for using DVD players, camcorders, and gaming consoles
- Delivers a sharp, bright video picture through S-video outputs
